## ABOUT KBPE

---

KB Pure Essentials is a lifestyle company offering an all-natural line of wellness and beauty products formulated with pure CBD. Our mission is to bring the life and health changing benefits of CBD to every individual through easy accessibility.

---

Located in San Diego, California, the company was originally formulated in 2013 as an all-natural wellness brand and by early 2015 began to incorporate CBD into their product line.

Driven to create a high-quality, revolutionary line of products, the founders embarked on a journey of research and development, rooted in science and the medicinal benefits of hemp/CBD.

The result is a full line of all-natural, top-quality, highly effective Hemp CBD Oil wellness and beauty products.

**Combining the POWERS of Nature and the ART of Science, KBPE has created three unique product lines. Each specially designed and formulated to improve health and promote natural healing.**

**We PRIDE ourselves on PURE.**
